

# Mohamed Saqer

Computer Engineering Student

[mohamed.saqer@outlook.com](mailto:mohamed.saqer@outlook.com) • +201091930427 • Giza, Egypt

## Introduction

I am a computer engineering student from Cairo, Egypt, I love Programming, Developing, and Problem Solving. I am passionate about startups and entrepreneurship so I dream to start my own company from scratch, I love adventures & taking risks so every second I search for a new thing to do which will help me open up for new opportunities as well as teach me new ideas about life. I am searching for an internship which will help me increase my technical knowledge as well as develop my soft skills. To help me become a high-quality graduate in the market, give me experience looking for jobs, and help me become a future entrepreneur.

## Education

- El-Saidia Sports School for man, Sep 2007 - July 2013  
Prepotry and High School
- Faculty of electronic engineering (menof), Sep 2013 - July 2014

## Volunteering

### AngelHack Ambassador

AngelHack, Jul 2017 - Present

We help AngelHack to organize more Hackathons in Egypt

### Microsoft Student Partner

Microsoft Egypt, Dec 2016 - Present

The Microsoft Student Partner Program recognizes top young minds from around the world who are passionate about technology. It's a once in a lifetime opportunity to develop real-world skills to help you succeed in your future career, to help others learn about the technology of today and tomorrow, and to connect with other like-minded students, all whilst having a ton of fun along the way. The program is our way of encouraging students who are interested in building a closer relationship with Microsoft, and those who are simply hooked on technology, to develop their skills further.

### MSP Tech Club President

SFE, Nov 2015 - July 2016

MSP Tech Club at Shoubra Engineering is a student community program that promotes advanced technology through education, practice, and innovation. It also provides students with both technical and non-technical sessions needed which is packing their lives with the high level of skills and supporting their careers with opportunities.

### UWP Teacher

Openness Egypt, Jan 2016 - May 2016

We contribute and partner with open source communities and promote interoperability to make it easier and less costly for customers to develop and manage mixed IT environments. We actively participate in the standards setting process and support established and emerging standards in our products.
